

# CFO

## Oil Dispersing Surfactant

# CLEAN SWEEP

INDUSTRIAL SOLUTIONS

Clean Sweep helps heavy industries replace the toxic chemicals used in their operations with cleaner, safer, biodegradable solutions.

**CFO** is a biodegradable, optimized surfactant formulation that quickly and effectively disperses oil. **CFO** contains no hydrochloric, glycolic, phosphoric or sulphuric acids, and contains no BTEX chemicals. **CFO** outperforms toxic and hazardous acid and BTEX based solutions, leaving surfaces clean and undamaged, with no harsh chemicals to dispose of.

## FEATURES

- 100% biodegradable.
- Non-irritating.
- Emulsifying technology.

## BENEFITS

- Powerful, clean, cost-effective, and safe replacement for traditional oil dispersing products.
- Eliminates the need for harsh chemicals.
- Optimize flow and prevent further build-up.
- Minimize downtime, and maintenance costs.

## APPLICATIONS

- Fast acting oil dispersement.
- Wellbore preparation prior to abandonment.
- Pipelines.
- Any operation prone to oil build-up.
- Available in 208 litre drums, and 1,000 litre totes.

\*CFO effectively disperses viscous oil in water at 20°C when loaded at 20 L/m<sup>3</sup>, thereby making it possible and easier to flush and clean out problem areas / wells.
